IT IS A PLEASURE TO WELCOME YOU TO THE OLD, OLD TIMERS CLUB!

YOUR BACKGROUND INFORMATION WILL BE PUBLISHED IN A

FUTURE ISSUE OF SPARK GAP TIMES. INFORMATION IS BEING

PUBLISHED IN MEMBER NUMBER ORDER.

CORRECTION

Some of us are blessed with better memories. Larry Price, W4RA, #2939 tells us that the University of Arkansas station call in 1951 was and is today W5YM not W5AI as reported in the September '94 SGT Page 19, Joe D. Olson, W5OXR.

The following members dues expired January thru July 1994

W11QU - W1LZW - W2ND - W2TLC - W2VLH - VE3CNP - VK3QY - W3TI
 N4BQC - W4ER - KD4EZF - ON4QN - W4SZ - W5OZY - W5SIW - W5UBU
 W5WRG - W6GVX - N6NWR - W8AHB - W8BQD - W8OVO - HB9ER
 W9YZE - SM0HVL - WB0OFF. (if there are mistakes here, let me know-W5JNK)

ABOUT THE "PIPELINE" COLUMN

The "Pipeline" column dates back to the earliest issue of Spark Gap Times that HQ has in our files, December 1967, Volume 7 #42, 27 years ago. Bill Miller needs your help if the column is to survive. Continue to send feature articles and your background material to HQ, Send newsworthy items to PIPELINE, BILL MILLER, K2GCE, 217 PORTERFIELD PL. FREEPORT, NY 11520.

A MESSAGE FROM

LELAND SMITH, OOTC PRESIDENT

The more I learn about OOTC from our Board of Directors and from you the members, the more I appreciate what a distinctive and prestigious fraternity we have. As I wrote in the last issue of Spark Gap Times, I am honored to serve as your president.

Several years ago I was President of another national organization (nothing to do with radio communications) which had a stock answer when the question was asked. "How to get a new member?" The answer was always the same, "Ask him!" So when you are in contact with an eligible amateur, either in person or on the air, why not tell him about OOTC and ask him to join!

Some constructive recommendations and even some criticisms are already reaching me. Some questions are being received also. For example: How can we encourage more OOTC members to become members in good standing?" "How can we encourage more International memberships?" "How should we elect or appoint International Directors?" "How can we make Spark Gap Times more interesting?" "Should we accept advertising in Spark Gap Times to help defray costs of publication?" "Should we colorize our OOTC logo, and if so what colors are suggested?" "Should we sponsor an annual world-wide QSO party or contest?"

If you can help us with recommendations or answers to the above or if you have other questions or comments, please be in touch with the OOTC Director for your call area or write me directly. I assure you that your suggestions and recommendations will be considered by the Board of Directors.

Some of you may recall that former President and Executive Secretary Ted Heithecker initiated a student aid program and a fund for that purpose was started. Your Board of Directors will be developing policy for this program. Contributions to the fund may be made through our Executive Secretary, Bert Wells, W5JNK. When OOTC receives tax exempt status from the IRS, we hope some substantial gifts will be received.

73 to all..

Leland Smith, W5KL

HAMMING IN CHINA - 1945 - 1946. BY JOHN McFADZEAN

W6TRP, #3016

After touring the Pacific area with the United States Marine Corps during World War II, I was sent to Japan for a brief time and then to China arriving there on December 10, 1945. Only a few days later I was pleased to hear from the III Amphibious Corps Headquarters that I had been assigned an official amateur call by the Chinese Government, XU1YJ. This was in connection with my U.S. call W6TRP, for which the Marine Corps had a record and had permission for five stations to operate from Tsingtao which is located on the Shantung Peninsula.

Only three of the five who had been licensed were very active in China, They are: E. C. Veregge, W6PBI (XU1YO); F. L. Guthleben, then W8SJA, now K6BCT, (XU1YQ); and myself. I still remain in contact with my old friends by amateur radio, usually about twice a week.

The first transmitter I built, from memory, was a standard 6L6 oscillator and an 807 final. I built the modulator for 6L6's; however, I had to use 6V6's until a communication ship sailed into Tsingtao. I was able to secure quite a few much needed parts from a sympathetic would-be-ham who was aboard. For instance I replaced a PE-103 dynamotor, with no base or relays, so I would not just sort of sneak on the air as the dynamotor came up to speed.

After looking all over the city of Tsingtao for a power transformer, and drawing the schematic symbol with the required voltages, I was fortunate to find a "Byan Yo Chee" from an elderly Chinese gentleman that had never heard of amateur radio. It worked.

For receiving, a converter was used at first; then, a friend named John Beck, who had become interested in my project secured a Hallicrafters S20R which was almost too good to be true. At that time most military receivers would only go to 18mHz, and, I was only capable of 10 meter operation.

With a ten meter dipole up in the air about sixty feet, and with about sixty watts of power, and, with the blessing of excellent propagation conditions, I could work the world. The best signals came from Australia, New Zealand, Burma, and almost all of the Pacific islands. Europe was there too, but rare.

I was interested in U.S. contacts, and decided to install a long wire pointed at the center of the United States. The antenna seemed to load properly and did a good job of receiving, so I called "CQ USA". A K7--- returned my call which was not exactly what I was looking for, since at that time K7 was the prefix for the territory of Alaska. Some of you old timers will remember that!

I spent much of my spare time in the basement of the "Molke Bingying" (German barracks) enjoying world wide hamming; also, it is a real pleasure to continue the contacts with my old friends of long ago.

SILENT KEY LETTERS TO EDITOR**BINGHAM GATES DAY W1CTF #2844 1910-1994**

(reported page 26 Sept. SGT)

Bingham Day passed away March 17, 1994. Three years ago he had a stroke. He recovered partially from that but had not been well for quite awhile. He really enjoyed his radio and worked it some until two months before his passing.

Mrs. Bingham Day

**My husband K5UYH Larry Wise (1920-1994)
became silent key in July.**

I have been very busy so did not get all my mail answered on time.

I am now a National Director, QCWA.

Milly Wise W5OVH OOTC #2855

ADRIAN L. WILCOX W4ELR #2184 1904-1994

(reported page 26 Sept. SGT)

My husband Adrian L. Wilcox passed away January 29, 1994

Kelly Wilcox

AUSTINE HENRY VK3YL #1367 1911-1994

It is with deep regret that I have to notify you of the passing of your Australian representative, Austine Henry, VK3YL. She passed away suddenly on the 9th of September after several minor strokes, and she will be deeply missed by all of us in Australia. She took out her Amateur license in 1930 and during WW2 was instrumental in teaching RAAF (Royal Australian Air Force) personnel the morse code. Throughout her Amateur career she used CW exclusively, and made many overseas friends through that medium. I have been collecting her QSL cards and delivering them to her for quite some time now, and have been amazed at the diversity of her world wide contacts. She will be surely missed by her many overseas contemporaries I am sure, and we will mourn her passing greatly.

Alf Chandler, VK3LC

FRED W. FISCHER W9DW #2502 1908-1994

Sorry to inform you that W9DW - Fred W. Fischer died on 1-11-94.

Dorothy B. Fischer widow of W9DW

CARL S. WALTHER W1OPZ #3175 1906-1994

Sorry to tell you this - Carl passed away Aug. 7, 1994. He really loved radio, too.

Ethel Walther, his wife.

OOTC DIRECTOR 3RD DISTRICT ELECTION

The voting for the two candidates in the 3rd district election closed on October 31.

Your red-faced Secretary put ballots in the Spark Gap Times for members residing in Virginia instead of Maryland. A few days later the error was brought to my attention and ballots for members in Maryland were mailed. 3 Ballots postmarked "VA" have been voided. The ballots were verified by state. The tally is as follows:

Henry L. Schultz, Jr. WI3U - 6
G. Paul Gerbracht, W3QPP - 31

G. Paul Gerbracht, W3QPP is declared elected and will take office January 1, 1995.

Milbert A. Wells, Executive Secretary, OOTC

OOTC DIRECTORS FOR THE EVEN NUMBERED DISTRICTS

Nominations for Directors, even numbered districts, are now in order. Members in good standing should send their nominations in writing to the Secretary as soon as possible for publication in the Spark Gap Times. The nominating & endorsement period ends September 30, 1995. The polls will close on November 30, 1995. No candidate may be nominated for office without their concurrence. All nominations must be endorsed by at least 3 members in good standing & residing in the district.

OOTC ON THE AIR MEETINGS

New England:	Thursday, 1400 local, 7230 KHz, with W2EEQ as NCS
Florida Chapter:	Saturday, 0800 Local Time, 3955KHz, with W4NWF as NCS
Northeastern:	Thursday, 1400 local, 7230KHz, with W2EEQ as NCS
Southern Cal:	Tuesday, 4:30 PM local on 3917KHz with W6NKE as NCS
National CW:	Friday, 10:00 Eastern on 14050KHz with W8CCN as NCS

OOTC MEMBERSHIP SUPPLIES AVAILABLE FOR PURCHASE

OOTC JACKET PATCH - \$5.00
OOTC MEMBERSHIP STAMPS (108) - \$2.50
OOTC PIN (STANDARD NO YEAR, 50 YEAR, 60 YEAR) - \$3.50
DECAL 3" ROUND (DURABLE, FOR OUTSIDE OF WINDSHIELD) - \$1.00

SPARKS OPERATOR GEORGE AHRENS, W5JN, #907

George's eyesight is about gone but attends our fledgling OOTC Chapter meetings in Dallas. This is from an interview with him on Sept 29, 1994.

I was born July 22, 1909 and lived in Norwalk, CT until 11 years old. Attended Williston Academy East Hampton MA. in 1924. At age 15, piddling around in the Physics lab, put a rig on the air (1AEN.) Obtained Telegraph license in 1927 and went immediately to sea. First ship was a 4 masted schooner, The Secony #90, towed by a tanker called "Vesta", New York down to Beaumont TX. I was the only operator, the only reason was in case the tanker got sunk. Worked coastal stations and checked in with the tanker every day at noon. It had a 1/4 KW quenched gap Marconi Spark. After three trips on that thing, I decided to get off. I wanted something better and got a job as Jr. Opr on a passenger ship. The good old Red D Line, Carabobo, New York to San Juan, La Guiara, Curacao, Maracaibo and back. It had a spark transmitter that had been converted to two 204A's that lit up the room.

Three months later I found a better ship, the Orizaba, Ward Line New York to Havana and back. One round trip a week, spark rig. I always shipped out of New York, on the East river pier 14 or 15 and North river pier 57.

The goal of every radio operator was to get a job on U. S. lines. I made 3rd opr on the Republic, an ex-German ship, it was a great big sucker, 3 stacks. Carried about 2000 passengers New York to Plymouth, England, Cherbourg, France and then to Bremerhaven and Hamburg.

Monitored 500kHz and 2100kHz. Constant radio watch with two operators, 6 hrs on and 6 hrs off. Handled passenger messages. Called on 500 and moved off to 705. 800 was direction finding frequency. Antenna was length between the masts averaging two hundred feet, two or four wire flattop, some cage. Single wire feed of 19 strands of #16 wire. I never had an antenna come down, they were very stout.

Receiver was IP501 WSA crystal detector, WWI surplus. Later had two 201A's, oscillator and amplifier. Power was ships generator 60 Hz. Press Wireless started about 1926-27, DeForest Radio.

Coastal stations in NY-WNY, NJ-WSC, FL-WOE, New Orleans-WNU, Tropical Radio Miami-WAX, RCA Port Arthur-WPA. Contacted U.S. coastal stations to about half way across then picked GLD Portsmouth, England. FFU Lisieux France and one down in Marseilles, FUC.

It was an interesting life out there I can tell you that. I gave up ships in 1940. I was ocean going quite a while. RCA acted as an employment agency. I took the Morro Castle out of the shipyard but was not on it when it was on the Asbury Beach. That was a bad situation. I continued sailing after I was married, I was lucky. I married the ship's nurse but nobody knew it. Against company policy.

continued on page 12

George Ahrens, continued

I knew I was going to have to quit some time so when there was an opening at an RCA shore station in Savannah GA, WSV, I took it.

I called Mount Vernon, New York my home. My folks lived in that suburb of New York.

When I was on the North Atlantic I did a little bootlegging now and then. The call used was 1AEN, which was the school call back in East Hampton, MA.

I used a straight key until finally got a Vibroplex. I still have my Bug, the one I went to sea with. The swing some operators had was called the banana boat swing way back then. The key (pump handle) was placed near the edge of the table on British ships and the American keys were mounted further on table and easier to use.

If a person was venturesome, he could pick the ship that he wanted. Could find out what ship was going where and boondoggle to get a job on that ship. Could travel anywhere you wanted around the world. I was a sucker for the North Atlantic, intercoastal, Carribean and west coast of South America. I went through the Panama Canal regularly, every 18 days, but had no desire to sail the Pacific.

When we went into Bremenhaven I used to regularly go up into Berlin and Munich. The German people were very hospitable. I eventually transferred to Tampa, FL as a Technician and later promoted to Manager in Galveston, TX.

GEORGE AHRENS, W5JN, AT HIS HAM STATION
page 12

1993 MILESTONES FOR BORGE OTZEN, OZ8T, #1633

The WAS Award arrived. ARRL's letter of congratulation together with the 60 Year Commemorative Pin was received well in time prior to 1. September - on that date I had been a member of ARRL for that many years.

A few days later - also well in time - I had the pleasure to receive the fine Special 60 Years Membership Plaque and it now adorns my wall here at my "working place".

In connection with my 80 years birthday on 25th August I was greatly honoured by the visit of our society Experimenting Danish Radioamateurs - E. D. R.'s Vice President Ivan Stauning, OZ7IS, the editor Flemming Hessel, OZ8XW and the technical editor Sven Lundbech, OZ1AWJ of our magazine "OZ", who - to my great, pleasant surprise - presented me two honours at the same time: The Blue Pin of Honour and the E.D.R Pennant in appreciation of what I have done for E.D.R. during my 62 1/2 years of membership.

I must admit that these two honours from our society Experimenting Danish Radioamateurs, E.D.R have put my "E.D.R. -life" in a new light for me. What I have "done" for E.D.R. in the course of my long membership has always been "done" because I liked it!

My vy 73 to my fellow members of OOTC.

EDITOR'S NOTE: In response to our request for news from our overseas members Borge resent a copy of his November 28, 1993 letter with pictures - which was evidently misplaced in the commotion of changing editors after Ted's sad passing. If we find the pictures we will publish them later. Thanks for the fb report on your memorable year, Borge. Many good wishes for your continuing good health. And how about this next report from down under!!!

ALF CHANDLER VK3LC #881

I, Alf, VK3LC am 89 years old until the first of June next year but am feeling as young as ever, Hi!! With my XYL, Elise, we travelled by car 18300 kilometers through Queensland and New South Wales for a three months holiday this year calling in to many places that I have been wanting to visit as well as some Hams, and enjoyed every minute of the journey. Next year we intend visiting the USA from June to late August and will be attending the YL ISSB convention in Portland, Oregon as well as some of our many friends in the US.

I am on packet radio (VHF) and my BBS is as follows - VK3LC @ VK3COL. #MEL. VIC. AUS. OC. ALF 3193 Beaumaris. If any of our members would like to communicate I would be delighted to respond.

VY 73, ALF

CHAPTER 2

The FALL FESTIVAL of OOTC CHAPTER 2 was held at the LONG BEACH YACHT CLUB on Sunday, October 30, 1994. There were 28 members and guests present. The beautiful Halloween place and table decorations were made by Helen Windom, N6ZLL, and were funded by a donation from Clarke Vaughn, KH6IHY, #2771, in Aiea, Hawaii.

Ken Johnson, W6NKE, and Arch McGregor, W6AGZ, were re-elected to the respective positions of President and Secretary/Treasurer for 1995.

E. A. "ART" PEAVEY, W5UZW, #3121

The picture of my wife Gladee and myself will probably be used as our 60th wedding anniversary picture this fall. I was 85 in July and am beginning to show my age. The other picture was taken while I was still in the Navy - I retired in 1971.

I received my ham ticket in February 1928 and except for WWII and Korea I have tried to keep active on the air. I received my Telephone 1st in 1934 and it is still in effect.

I am on the air each Monday, Wednesday and Friday around 11 AM using 14,265 kHz. If you ever hear W5UZW on the air give me a shout.

MARTIN E. "MARTY" JOHNSON, W3YOZ, #3238

Born 6/13/38. Single. Took ham test with Jim Gorman now W6SQZ #3251. I received WN3YOZ and Jim received the next call WN3YPA. We are same age and attended code classes at the Naval Reserve Unit in 1954. We lived a block apart in Altoona, PA & both our licenses arrived the same day. Jim called me on the phone with the simpler 5 digit phone numbers back in those days. We then fired up our 6V6 crystal oscillators to work each other & try out our new calls in the 80 meter novice band. In the ensuing weeks neighbors allowed us both to erect full size 40 meter antennas and we added 6BG6 stages to our rigs and worked many stations. W2KCR was my first QSL card and I framed it. Because Jim and I did everything together, I asked him to also join OOTC.

I first met W3WPY my sponsor at Field Day 1957. We then both lived in Pittsburg, PA. I had just turned 19 years old. W3AJU was the Field Day call. Walt and the other senior participants were part of the W3VKD contest group and were among the very best operators in western PA at that time. All four operating positions had a Collins receiver. It was wonderful. Two years ago, at the P.V.R.C picnic (which I host), Walt showed me pictures of that & earlier W3AJU field days.

B.S.E.E Penn State Univ. 1960, M.S.E.E. Univ. of Illinois 1962, M.A. Univ. of Maryland 1976. Electrical engineer for antenna firms in Maryland and Virginia until 1969; government for two agencies until 1982; my own consulting practice thereafter - computers in medical applications. Joined P.V.R.C 1960 QCWA 1973

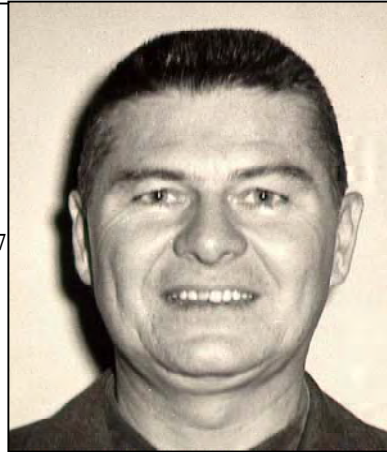

BARNEY C. MOFFATT, W5CJZ, #3239

continued page 16

Born 9/8/14 Muskogee, OK. Spouse Lil. Obtained ham license in Oklahoma City Central high school 1932. W5YE. Both commercial licenses in Kansas City 1939. Employed by MidContinent Airlines March 1940. Moved to Minneapolis, MN Thanksgiving day 1941. During WW2 deferred due to Airline Military contracts. Also modified B25 aircraft for Tokyo bombing mission. MidContinent merged with Braniff 1952 and moved to Dallas, TX 1953. Travelled to South America and Europe in Airline maintenance capacity. Later became Manager of all Component Overhaul Shops and Simulator maintenance. Retired last day of Sept. 1979. Obtained Texas Realtors Brokers License 1966. Volunteer for North Texas Taping and Radio for the Blind, spring 1980. Member ARRL, QCWA, IAAH, 10X10, AWA and DARC. Operate CW and SSB. Previous calls W9PVQ, W0PVQ.

**GEORGE J. KALOUSEK, N7GMK
#3240**

Born 4/24/13 Detroit, MI. Spouse Mary
Christina, 3 children. Previous calls,
CE3FW 1945 - OA4CY 1948 - K5OJK 1957
Background not received in time for this
issue of Spark Gap Times. Will
be in a future issue.

RICHARD H. HARRISON, KB5WZI, #3241

Born 7/27/27 LaPorte, TX. Spouse Louise. 3 boys, 1 girl. Radio hobbyist before WWII. Took J. E. Smith's NRI course while in high school. Failed Navy's code aptitude test in 1944. Though rated a motor machinist, was sole radar, fire control computer, radio, and movie projector repairman on board an LSM in the Pacific theater. My shipmates appreciated the movie expertise most. GI bill educated in electronics with First phone license in 1949. Two-way radio and broadcast work until EE degree in 1954. Assistant chief of Radio Free Europe's transmitter facilities at Lisbon, Portugal. Built antennas, transmission lines, switches and inside-plant equipment while broadcasting to iron curtain countries, 1954 through 1958. At the time we had the world's largest collection of shortwave

Richard Harrison, KB5WZI, continued

transmitters and antennas. There were curtain arrays for each band, plus rhombics.

Again in Houston in 1959 until hired by Tenneco (Tennessee Gas) 1960. Stayed until retirement in 1986. Worked with all telecommunications modes in steaming jungles and frozen wastelands. Served energy telecom industry as ENTELEC president and chairman. Got a 5WPM ham technician license in January 1993.

WILLIAM R. GARY, K8CSG, #3242

Born 7/17/31 Owensboro, KY. Spouse Norma, 4 children. Graduated from Univ. of Louisville with EE degree 1953. Worked for Columbia Gas System companies in WVA 1953-67 and Ohio 1967-76. Resigned, moved to Houston, TX and joined Arabian American Oil Company, ARAMCO. Managed domestic company telecoms for 7 years. Transferred to Saudi Arabia early in 1984. Managed telecomms in Saudi Arabia until retirement in Nov. 1986. During above I served two tours of active military service, retired 1975. First wireless comm's was in high school via a classmates ham station. Currently on DXCC honor roll with 347 countries.

WILLIAM E. WHITE, K2KAD, #3243

Born 5/26/27, spouse Joyce, 8 children. Enlisted in U.S. Navy at age 17, attended Radio School after boot camp, graduated top 6th in a class of 68. After war, attended college, graduated B.S. Music Education. Introduced to Amateur Radio by a long time personal friend, Ernie Brown, K2BWK. Earned General Class ticket on first try. While teaching in 1964, became "elmer" to John Kohl, now KO4A, who eventually upgraded to extra. I had encouraged him to finish High School and go into the military. Without telling me, he upgraded to Extra, then got on my back like I had with him and wouldn't leave me alone until I also upgraded. So, on Nov. 14, 1980, I went from General to Extra and notified KO4A via phone patch to California. We're still closest of friends and keep in touch via the Jarhead Net every Saturday, 8:00AM 7228mHz.

The beginning of my Amateur Radio days were past the days of "Spark." I do remember learning the code, the hard way, as a kid. I had found a funny looking and very old radio in a trash pile and caught hell for bringing the thing back home. I hid it in the garage, managed to get it working again and for the first time heard what was called "code." It intrigued me to no end and soon I was able to pick out letters and numbers with not much sense made of anything. I began picking up magazines, catalogs, & whatever I could find on radio. The thing I remember most was this rather loud and horrible, buzz-saw like sound which covered almost the entire length of one of the bands. After I realized that it was broken up into dots and dashes, for the first time I was able to put together words that made some sense. It was later explained to me that what I heard was "spark" transmissions.

Because of museums, those early days of radio will live on forever. In this area we are fortunate to have the "Antique Wireless Association" and Museum with curator Bruce Kelley W2ICE. A visit to the museum in Holcomb, N.Y. is a memorable experience. Their ad is in QST under "ANTIQUE-VINTAGE-CLASSIC" They have a large display each year at the Rochester, N.Y. hamfest and Atlantic Division convention.

JOSEPH R. TERRAZAS, KN6PR, #3244

Born 6/11/25. Spouse Rebecca, 1 child. Other call KC6OWA. Enlisted in the Marine Corps in July 1942, served in the Pacific on Midway, Guadalcanal, Munda, New Georgia, Bougainville and Green Island. Graduated from Radio Gunner school in November 1942 and assigned to a Dive Bombing Squadron VMSB-244. Worked for Shell Oil company 1945-47 then joined Bank of America assigned to various duties overseas until 1983, retiring as Vice President Operations Europe, Middle East and Africa. To graduate we had to take code 23 words a minute, I wish I could take it that fast now.

**KN6PR****Richard M. Bearden, N5RYZ, #3245**

Born 9/22/27. Spouse Evelyn, 1 Child. Found a good friend through Ham radio, went through radio school together, later visited him in Hilo, Hawaii. Copied an "SOS" while enroute to Canal Zone. Copied WCX press and put out newspaper aboard ship. Copied msg that U.S. had dropped "A" bomb. CO and EXEC thought I was putting them on. Picked up Allied POW's at Yokohama, only 28 Americans. In typhoon at Okinawa, 189 knot winds. At last duty station, NAS Anacostia, Wash. DC, met Bull Halsey. Manned circuit when Sequoia went out. Discharged 55. Became crane operator and bought my own rig, 40 ton P & H mortar crane. Sold out and retired in 1988. Looking for EX-members of "Beach battalions A, B, or C", I was in "B" aboard the Bracken APA64 and the Pres. Jackson APA18 in Korea. see photo on page 20

Richard M. Bearden, N5RYZ, #3245

WILLIAM GORDON BUCKNER, W0VZK, #3246

Born 12/25/34. W0OJC, Bob Payne, interested many of us in amateur radio in the early '40s. WN0FXA, now W8EDM, and I attempted our first 2 way "Wireless" with Photocells back in 1946. Not much later I received my novice license. ARRL 25 WPM code proficiency certificate 1969. Extra Class 1982. Life member ARRL 1970. Life member Radio Amateur Satellite Corp. in 1975. Life member QCWA 1980. Rag chewers club. RACES Emergency Coordinator Saline County, MO. in 1972 and for many years. Volunteer Examiner ARRL, W5YI and PHD ARA. In May 1992, member of newly formed Columbia - Boone County Emergency Management Agency. Regular Army SP 5 (E-5) July 1956 to July 1959.

B. J. "TONY" MARTIN, JR., W4FOA, #3247

Born 5/6/39. Previous calls WN4FOA '54, EL2AD '63-65, 7Q7AA '69-72, PY1ZBA 73-75. USAF 1957-61. Served 4 years in England with USAFSS; foreign service duties include living in Liberia, Malawi and Brazil. Temporary assignments in more than 20 countries in Africa, Europe, Far East and Latin America. Retired from Federal Service with 32 years in 1989. Primary interests; CW; DXing; Gardening.

**LARRY RUEGSEGER, WA6UTQ, #3248**

Born 2/23/33. Spouse Isabel KE6DFA. Navy 1951-55. Radiotelephone 1st 1964. Broadcast engineer KWIZ AM-FM Santa Ana, CA. Now retired from Pacific Bell as communication Tech. Member ARRL, QCWA, TAPR, AMSAT, and 20 other ham clubs. Should be close to having the world record for the longest time to upgrade from 5WPM to 13WPM, still working on it.

MICHAEL W. MAYER III, W5ZPA, #3249

Born 9/28/38. Spouse Rae Sara Mayer. Father of boy and girl, both married. Grandchildren, two girls 5 & 9. Have put on several DXpeditions. Holder of top of honor roll both on phone and CW. Like RTTY & have 307 countries confirmed on RTTY. Operate phone 40%, CW 40% and RTTY 20%. Station: Kenwood TS950, Collins 30S1 amp. Two element quad at 70' with Rohn tilt over tower. Other hobbies are fishing and travel.

WILLIAM H. MILLARD, W4PBN, #3250

Born 5/23/19. Spouse Jeannette M.
4 sons. Previous call K8KUQ. Navy RMC
1941-1969, retired. Civilian Conservation
Corps 1938 and worked for the U.S. Forest
Service. Re-enlisted in 1939 and served as
surveyor and carpenter.

**JAMES W. GORMAN, W6SQZ, #3251**

Born 12/19/37. Spouse Barbara, one son. Took ham exam with Martin Johnson, now W3YOZ. (See page 15 #3238) Former calls WN3YPA, W3YPA. BSEE Lehigh Univ. 1960; MBA Lehigh Univ. 1973. Design engineer/system engineer for microwave airborne radar systems 1961-62. Design engineer/system engineer/program manager for development, manufacture and installation of microwave line-of-sight & tropospheric scatter communications systems 1962-72. Graduate study 1972-74. Forecasting and new product planning for electronic components 1975-79. Program management for ICBM system development and testing including use of the GPS navigation system to provide on-board missile test metrics 1979-90. Thereafter retired because of medical disability. Amateur radio: Horse shoe ARC (PA) late 1950's, Citrus Belt ARC (CA) late 70's, current member ARRL. First class Radiotelephone. Back to Marty, W3YOZ. His antenna farm is a sight to behold! His latest addition is a 135' tower in a top loaded folded monopole (cage) configuration. The top loading is accomplished by connecting a tuning circuit at the base to the top of the cage via open wire feeders. It launches a 5-8 160 meter signal to the west coast. He's working on a 160 meter 5/8 wave balloon lofted vertical with 100+ elevated radials over a salt water marsh. If my computer analysis is anywhere near correct, he will have virtually world-wide coverage capability.

ROBERT G. RICKEY, NF6P, #3252

Born 12/6/28. Spouse Betty, 3 children. Former call W5EWJ. I was Honorary member OOTC October 4, 1991. Regular member 7/12/94. BSEE Univ of Kansas, 1954. Radiotelephone first class 1948. worked as broadcast engineer at several stations while attending school. Worked in aerospace engineering for 30 years.

RALPH L. KILSHEIMER, KB2DIS, #3253

Born 11/26/26. Previous calls W2QOM, WA2COE. U. S. Maritime service 1944 to 1948 2nd Lt. Shipboard radio officer; mathematics instructor; N.Y. state licensed teacher; computer programmer.

ANTHONY J. WEINER, W0ZO, #3254

Born 2/10/13. Spouse Jeanette, KC4HWK. Merchant marine 1941-1944. Braniff Airways pont to point operation CW and voice. American Export Airlines 1945-1946. American Overseas Airlines 1946-1950, TransWorld Airlines 1950-1956. Federal Aviation Agency as Air Traffic Controller 1957-1959. FAA as Electronic Tech. 1959-1979. Continuously licensed since March 28 1933. Previous calls W2SQU, D4AKW, W5KTM, W9QBP, W0BKK.

ROBERT WM. McNAIR, W6XS, #3255

Born 9/11/18. Spouse MaryRose, WD6AXA. Was W6MPZ 1935 to about 10 years ago. Navy LT. 1942-1946. Well, yesterday I had a CW QSO with W9MBL via Oscar 13. It was my first ever operation via the satellite. W9MBL is in Bloomington, IN but the satellite was way off the coast of Peru over the Pacific Ocean. I was using only 6 watts output on 436mHz to a homemade 27 turn Tetrahelix.---- and this is the highlite of my entire career.

JOSEPH N. MOYER, K6MV, #3256

Born 9/7/18. Spouse Dorothy. W3EWJ Aug. 1934 to Aug. 1953; W5ASD Aug. 1953 to Feb. 1957; K6YUW Feb. 1957 to Nov. 1968 and K6MV to present. USAF 2nd Lt. to Lt. Col. June 1941 to Sept. 1978. Sept. 1966 organized Boller Enterprises in Hickory County, Hermitage, Mo - survivors, retired with N0RB antenna farm.

PIPELINE by Bill Miller K2GCE
217 Porterfield Pl.
Freeport, NY 11520

Well, here it is another issue of SGT & hopefully we will be able to put together an acceptable column this issue. Unfortunately there weren't too many people sending in material for this issue. But let's see what we can do.

Because of having my son and grandson with us for the month of August we are only now starting to see daylight so we may have left some material out that had been sent to us, if so please excuse the omission.

When we had a few minutes to ourselves we had the opportunity of catching up on some of our reading. Through sheer good luck we ran across a 1939 copy of an issue of RADIO magazine. It did the world of good to have a chance to see what the world of amateur radio was like in those by-gone days. As you Old Timers remember RADIO started publishing some where in the twenties and lasted until shortly after the end of W.W.II. It was a excellent magazine & in my opinion was much better than QST as far as technical material. I am sure many of you remember Scratchi's monthly columns which were filled with Asian wisdom, but were most enjoyable. The Ads in themselves were worth reading and it was unimaginable some of the prices asked. Oh, well, like all nostalgia it is a lot of fun to read over.

We have been in constant touch with Charlie Krause, N7ESJ, and although he is still in the nursing home in South Carolina, he seems to be feeling better. He is still hoping to be leaving there some time around the first of the year. Let's keep the letters going his way as I am sure that it will be helpful in making his time there seem shorter. If any of you have written to Charlie, and for those that may in the future, his ZIP code was incorrect in the last column of the PIPELINE. I had written it as 29578, it should have been 29575. Excuse the error.

In one of his letters Charlie sent me a very interesting excerpt from National Geographic concerning "Lightning" and Nikola Tesla*.

Received a very nice letter from Hank Schultz, W13U in which he mentions many pleasant QSO's with Ev Gibbs, W8AQ(SK). He mentioned that after he returned to ham radio in 1980 (off the air from 1966-80) one of the first people he looked up was W8AQ. It is amazing how certain of our friends never seem to be forgotten.

It is good to have Dick Roderick, W5QU as a new member of OOTC. Any of you who are also members of QCWA will recognize the call immediately as Dick (also known as Rod) is net control for the QCWA net that meets on Wednesday nights. Well for now that is it as the returns were very sparse this month. Hopefully for the next issue they will be better. Remember without you this column doesn't exist, fellas and gals. 73

Bill Miller
