

#153 PARSONS, Fred A., W2EXM. Handle "Fred". Born May 4, 1892. First 2-way wireless contact 1906. Present occup: Retired from New York Telephone Co. Was early Morse wire operator, still use it on 7004 Sunday mornings 8-9 am with "Morse Gang". With United Wireless on ship assignments prior to 1912. W2EXM still has the scale model of famous old Marconi Stn., WCC, S. Welfleit, Mass. which he built. Really a beautiful piece of work--its realism enhanced by a tiny spark flashing from the shack windows. The sand dunes are made from the sand brought from the original station site.

#154 HERRMANN, Louis G., W8EL, Ex-9EL. Handle "Lou". Born Indiana June 25, 1900. First 2-way wireless contact 1914. Occup: (M.D.) Prof. of Surgery, University of Cincinnati. 1913-1914 first spark coil and Galena crystal set. 1914-15 loose coupler, variable condenser De Forest audio-receiver and ½ kw homemade rotary spark XMTR. 1915-16 Vario-coupler 2-stage audio and audiotron receiver. Stn. 9EL was dismantled April 1917, re-established W8EL after WW2 in Cincinnati. Holds Amateur Extra Class license. Station now on SSB and CW transmission using 15 and 20 meter beam.
