PRINTING AND MAILING THE SPARK-GAP TIMES.
IF YOU WANT TO RECEIVE FOUR MAILED ISSUES

OF SPARK-GAP TIMES, THE FEE IS:

U. S. (ZIP CODE) MEMBERS
\$5.00 PER CALENDAR YEAR.

INTERNATIONAL MEMBERS (NO U.S. ZIP CODE)
\$7.00 PER CALENDAR YEAR.

THE MAILING FEE ALSO APPLY TO
"LIFE DUES PAID" MEMBERS.

SEND FEE TO OOTC 7634 CARLA RD., BALTIMORE,
MD 21208-4409 MARKED "FOR SGT BY MAIL".

Troy Wideman, W6HV, President
"PIP" Sager WB4FDT, Executive Secretary
Editor/Publisher Spark-Gap Times

If somebody ever came up with a short list of a “Hall of Fame” for ham radio operators, certainly Vic Clark, W4KFC, would be on it. Vic was a world class CW operator and contest operator. He held many positions in the ARRL, including that of President, and helped to found what has become one of the largest contest clubs in the country, the Potomac Valley Radio Club (PVRC). Hams will never know how much Vic contributed to ham radio and the American Radio Relay League. Vic did not have a big ego, and frequently gave credit to others for his ideas.

Briefly, during the 50 years Vic was licensed, he served the ARRL as Arizona Section Communication Manager from 1937-1939, as Virginia Section Communications Manager from 1952-1954, as an ARRL Assistant Director from the Roanoke Division from 1952-1966, as Director from 1967-74, as IARU Vice President 1974-6, , as an IARU Region 2 (South/Central America) President 1976-80, ARRL First Vice President from 1974-80, and ARRL President from 1982-until his death in November, 1983,

Vic won numerous contests, taking first place in CW Sweepstakes in 1947, 1950, 1952, 1958, 1964, and 1965 in the single operator, high power class. Just before he passed away, Vic was speaking at a New York hamfest and he asked the audience how many if them had worked him on the air. Fully three quarters of the audience raised their hand to indicate they had worked him!

Vic was licensed in 1933 as W6KFC. He was 16 years old, and living with his parents in Arizona. Just three years later, in 1936, Vic came in second in the ARRL CW Sweepstakes. Vic was an active contester and traffic handler. In 1936 the ARRL awarded Vic the first Hiram Percy Maxim award to him for his amateur activities.

Vic served with the Federal Aviation Administration from 1941-62, directing the establishment of the Instrument Landing System (ILS) at airports throughout the U.S. And assisting with the implementation of the system in other countries. He then became Director of the US Coast Guard's Electronics Engineering Laboratory in Alexandria Virginia, and retired in 1973. Some of our members may have worked the K4CG station in contests in the mid 1960-s and 70's. This station was located in the same building as Vic's office, and certainly Vic helped to initiate and build it.

Vic had a saying that "Activity breeds activity". In other words, any action would encourage more action and reactions-- like a pebble being thrown into the water. Thus Vic spent much of his time encouraging amateur radio activity of any kind. New ham clubs, new repeaters, new contests, anyway to broaden the many aspects of amateur radio he would support.

Some years after Vic's sudden death of a heart attack in 1983, a number of PVRC members got together and stories to tell about Vic. These are some of the stories told which everyone connected with swears is true!

From Bill Levitt: "To help celebrate Armed Forces Day, hams were invited in to operate the Pentagon short-wave station WAR, work other hams, and exchange QSL's. Vic and others from the PVRC would go over and work shifts on such occasions. Vic amazed everyone by operating a shift two handed: Using separate receivers and transmitters, he'd write down a signal report being sent to him on one frequency with one hand, while sending "CQ de WAR" with the other hand on another frequency. As soon as the report was complete Vic would acknowledge by sending an "R" followed by "QRZ" and so hook up with the next guy in the queue."

From North Richardson, W4KFT (sk) "I was operating in an SS contest calling "CQ de W4KFT". When I went to listen someone came right back but not to me, but to W4KFC. Vic was right on my frequency, so I moved off and tried again, but again someone came back to W4KFC and Vic responded. This time, I moved again slightly off frequency, and set the equipment so I could hear between the dots and dashes. What do I hear: "CQ de W4KFT" and in perfect anachronism a DIT DAH DIT was being inserted by Vic after the "T" in my call. Vic and I had a good laugh about that at the next PVRC meeting."

Vic himself once told the story to the PVRC club about him accompanying his XYL to the doctor. The doctor said he thought Vic's wife might be expecting. Then he asked Vic "when could that have happened"? Vic looked puzzled and said, "Well, I'll have to go home and check my log!!" The PVRC group knew it was true because he was on the air so much!".

From Jack Colson, W3TMZ (SK) “One day in the 1950's a group of us went over to Vic's to help repair his beam. Vic called CQ on his repaired antenna and a Russian UH8 came back. The UH gave Vic a terrific report and immediately asked him to test his phone on 14250. This was a standard practice for many DX stations in those AM days. Vic, in those days, was CW only and did not have a mike. Vic told the UH station he had no mike, but the UH kept coming back and requesting the QSY. Vic had a 8-inch outboard VFO, So Vic got on 14250, held down his key, and banged the top of his VFO to modulate it. The UH comes back and says “no copy, QRM try again” so this time Vic really gives the VFO a series of bangs and thumps and the UH comes back and says, “solid copy, please QSL”. 50 years after the event, the group is still laughing about the event.

From WB4FDT: Back in the 1970's I attended a number of “Roanoke Division League Officials meetings” when Vic was Director. A number of times Vic would have a good idea, and rather than introduce it himself, would try to draw out the same conclusions from other individuals in his discussions with them, and then freely credit them with the idea.

For example, the conversation would go something like this: Vic would say: How do you feel about XXXX”. After receiving an answer, Vic would continue saying something like, “Well, maybe the ARRL should be doing this about XXX”. After receiving an affirmative answer, Vic would say, “You know, that sounds like a good idea, how about introducing it as a motion before the meeting so I can take it to Newington to work on?” When the motion was introduced, Vic gave the individual full credit for it. I was brave enough to ask him about this once, and he said that he thought new ideas had a better chance of being implemented if it came from a member rather than from a Director.

A historical note about Vic in Virginia. Vic was a founding member of the Virginia CW Net (still meeting today on 3578.5 at 7pm est) in 1947, and remained active until his death. While he was the Virginia Section Communications Manager (now called simply “Section Manager”) in 1952-4 he published a monthly Virginia newsletter which advertised all the amateur radio activities in Virginia during the period. No doubt this publication encouraged amateur radio activity and today it is a gold mine of amateur radio history during this period.

When Vic was IARU Region II President, Vic got the idea that countries should issue stamps (for stamp collectors) honoring amateur radio. This would be great publicity for amateurs in those countries and would give them some government recognition. When Vic urged the member societies to ask their governments to issue stamps, many of them hesitated. Some told Vic that they did not want any undue attention by their governments toward amateur radio or their societies. Many simply did not know how to

come about it. Vic kept urging them, and eventually a number of South/Central American countries did issue the stamps, usually honoring the 25th or 50th anniversaries of their amateur radio societies. In 1983, Vic met King Hussein of Jordan, ham call JY1, and urged him to issue a Jordanian ham radio stamp. A few months after Vic died a set of four stamps was issued showing the King in front of his ham station. One stamp is shown below.

SOME STAMPS HONORING HAM RADIO

A LOOK AT THE PAST

W5NW—Wayland 'Soupy' Grooves, 5NW, 5MZ (portable) 1904-1986,
OOTC #510, licensed in 1923.

Its in small print on the below 1926 QSL card, but it says; “Have been pounding brass since April 1923, and will be till April 1983”. Soupy lived several years beyond that!!

SILENT KEYS

Joe Schroeder, W9JUV #2967

“Joe” Schroeder, W9JUV, passed away April thirty. He was 83. Joe , OOTC #2967,

PAGE 10

had been serving as **our Vice President**, a Director from District 9, and was a member of the Executive Committee. Joe had been an active amateur since 1946 and was best-known for being at the top of the DXCC honor roll since 1979. He was named one of the top three DX ham radio operators in the world by QST earlier this year. In the 1970's Joe wrote and edited "HR Reports" a weekly newsletter detailing the happenings in ham radio, especially the FCC rule makings. He had also held calls K9OSO, WA1SXB, and G5CTY. He was a life member of the OOTC, ARRL, QCWA and AMSAT.

Not many hams knew that Joe was an expert on historical guns, and edited all five editions of the 'Gun Collectors Digest' as well as other gun publications. He was also a pilot and member of the Civil Air patrol.

Wayne Green, W2NSD #2248

PETERBOROUGH — An iconic figure in the Amateur Radio world, Wayne Green, W2NSD "Never Say Die" died September thirteenth at the age of 91.

Wayne was OOTC #2248. After WWII he edited CQ Magazine for five years and in 1960 founded 73 magazine which he published until 2003. He predicted the rise of the personal computer, and founded Byte magazine, which eventually became the nation's largest computer publication. After leaving Byte, he went on to found a number of other computing magazines, including Kilobaud (later called Microcomputing), 80-Micro, inCider, Hot CoCo and RUN before selling his company to IDG in the early 1980s and moving on to create magazines about music and cold fusion technology.

Wayne was very controversial but he was an outspoken visionary who had a lot of original ideas, many of which turned out to be good.

W4FX remembers a Potomac Valley Amateur Radio club meeting in 1970, where Wayne attended and spoke. He prophesied that in the future we would be using computers for log checking, and predicted that it would not be long before he would be able to control his HF rigs with a 2-meter rig while skiing the slopes in New Hampshire. Few members of the club believed him.

Wayne remained active until several months before his death.

GEORGE HART, W1NJM

George Hart, W1NJM, passed away at the age of 99 on March 24.. George worked at

ARRL HQ for over 40 years, and became head of the Communications Department. He is best remembered as the Chief Developer of the ARRL National Traffic System. An ARRL Charter Life Member, Hart spent more than four decades as a member of the ARRL Headquarters staff and continued to be an active amateur and regular participant in Field Day. In 1984, the ARRL Board of Directors named Hart as an ARRL Honorary Vice President.

First licensed in 1929 as W3AMR in Pennsylvania, Hart began his ARRL career in August 1938 as a second operator at the W1AW Maxim Memorial Station, which was new at the time. He took over as Acting Communications Manager in 1942 when then-Acting Communications Manager John Huntoon, W1LVQ, left the ARRL for active duty in the US Coast Guard during World War II. Beginning with the December 1942 issue, Hart contributed almost 1000 articles to *QST*, with topics ranging from public service to simulated emergency tests to traffic handling pointers; he also penned the monthly columns "Operating News" and "Amateur Radio Public Service." Hart served in the Army Air Force from 1944-1946, returning to his job as a Communications Assistant at ARRL Headquarters under Ed Handy, W1BDI, after the war. During his tenure at the League, Hart served as Communications Assistant, National Emergency Coordinator and ultimately as Communications Manager from 1967 until his retirement in 1978.

"George Hart exemplified the finest of the 'old school' radio amateurs for whom operating skill and public service were paramount," said ARRL Chief Executive Officer David Sumner, K1ZZ. "For many years -- as a private endeavor from his own station -- he offered high-speed Morse code practice at up to 65 words per minute. George set and met high standards in everything he did, inspiring generations of radio amateurs to do the same."

George, who was not a member of the OOTC, had been writing his memoirs over the past few years, and had given OOTC permission to reprint several short chapters in the SGT.

John Butrovich III W5UWB #3815

The family has informed me that John Butrovich III, W5UWB from Orange Grove, Texas, became a silent key in January. John was first licensed in 1946 as KL7WR.

Alan Pickering, KJ9N, #4214 SK

First wireless in 1954, other calls held: WN8ULS, W8ULS, K0JTW. Life member of the ARRL and OOTC.

Louis Geis, W5IBZ #3675 SK

First licensed as KN2DYA in 1953. Also held K2YDA, W2IBZ, K4HHD, and W5JHP. He was living in El Paso, Texas.

NEW MEMBERS

John “Jack” Barber W1PRT #4630

I heard a local ham when age 13 in Windor, CT, on 160 meters—and was hooked immediately. As a teenager I fiddled with breadboard stuff, type 30 tubes, etc. Not licensed until completion of WWII Air Force service. First license December 31, 1946 has W1PRT back in East Hartland, CT. Still hold that call despite move to W7 land in 1984. XYL Ruth (SK) became K1IIF in 1958. Both Extra class, DX and YL organization fans, ham friends, many international.

Among my past “visitor “ calls: 8P8EM, /DL, /VP9, /KH6, etc. Took home built CW rig to Korea war in 1952 but no ham transmitting allowed! Active in ARRL, emergency work, conventions. We had fun. Now inactive at age 92, but many happy memories...

ALAN SEES, NN0D #4629

My ham calls: WN4KRG—1963,

WA4WFO—1963-81,

KC0LT—1981-3,

NN0D-- 1983

GREGORY "GREG" J HARRIS WB9MII #4628

Born September 21 1958 Chicago IL. Mid April 1973 as WN9MII I worked WB9JNB on 40M CW. Rig was a Hallicrafters HT40 TX and the matching receiver (nomenclature forgotten). Other calls 7J1ALX, op-KA2NY, NHKG, NFKB, NMFA, NHNB, NHMX, NPO. Spouse Puring, 2 children. USN 1976-1996 RM1.

My "Elmer" was W9JMG. I'm active on CW. In 1976 I Joined the US Navy as a radio striker and retired 20 yrs later as an RM1. 5 ships and 2 overseas COMMSTA's ashore. Currently active on CW with an IC718 throttled back to 15W (I like QRP so go to 5W when conditions are good). Antenna is an indoor wire in my condo. Not an optimum setup but does well for what it is. Thanks to those who render service to make OOTC possible.

73 Greg Harris WB9MII (SWL WDX9KHY 1972)wdx9khy@sbcglobal.net

THE RULES SAY...

John B. Johnston, W3BE #3850

Whose Call Sign?

Q. When my ham friend operates my amateur station, whose call sign should he use, his or mine? A. Section 97.119(a) says, in effect, that the call sign transmitted in the station identification announcement must be that assigned to the station. It is for you, therefore - as the person having physical control of station apparatus (read Section 97.5(a)) - to first answer the basic question: Under the authority of which of our station licenses am I going to cause or allow my station apparatus to transmit? Your answer, therefore, will establish which call sign must be used. It will also determine the extent of your accountability. Make your choice carefully.

Q. What are my choices?

A. You have two:

Choice One: The station transmits your primary station call sign in the station identification announcement. This establishes you as the station licensee, responsible for the proper operation of the station, as it says in Section 97.103(a). You and your friend are both accountable for the duties of its control operator being performed properly. Note that Section 97.103(b) says that the FCC will presume that you, the station licensee, are also the control operator unless there is documentation to the contrary.

Choice Two: The station transmits your friend's primary station call sign in the identification announcement. This establishes your friend alone as being responsible for

NEW domestic member \$26. (\$10 Initiation + \$161 year sustaining fee).
NEW International member \$28. (\$10 initiation + \$181 year sustaining fee.)
LIFE DUES member \$10 initiation plus: Under age 75 \$250., 75 to 79 \$200., 80 to 84 \$150., 85 to 89 \$100., 90 to 94 \$50., 95 or over FREE, just send your application.
To change from yearly to life dues, same as above, except no initiation fee.

STARTING MAY 1, 2013 TO RENEW, send \$16. U.S. or \$18. international to
OOTC INC. 7634 Carla Rd., Baltimore, MD 21208-4409

Mailing of Spark-Gap Times to members not supporting OOTC with dues is

discontinued after 3 months. (Does not apply to LIFE DUES members).

Delivery of Spark-Gap Times can continue via e-mail PDF attachment. It is hoped that members that have computer with e-mail will request Spark-Gap Times by E-MAIL PDF attachment by sending a request to wb4fdt@gmail.com or to OOTC 7634 Carla Rd., Baltimore, MD 21208-4409 This is needed in order to save printing and mailing costs. INTERNATIONAL MEMBERS NOTE: Please remit American Express money order or check drawn on a U.S. Bank if a branch of a U. S. bank accessible, or U.S. currency. NO foreign bank checks.

ELIGIBILITY REQUIREMENT. You are eligible If you had two-way wireless communication 40 (or more) years ago (eligible on January 1 of the 40th year). OOTC recognizes your first two-way communication by CB, amateur, commercial or military operation. Provide proof if possible. If never ham licensed but had eligible 2-way communication, you may also join. If you get ham license later, send HQ your call.

OOTC wishes to have extended information about each member, activities and background. The information becomes a permanent and important part of your record as a member of OOTC, making it possible for us to publish your life work and experiences. Information is saved in the OOTC archives. We would appreciate a photograph, B&W or color. Send a biography and/or any story suitable for publication in Spark-Gap Times on separate sheet(s) of paper. Unless you advise otherwise, filing this application gives us permission to publish your membership in Spark-Gap Times.
